

HOPGUARD^{®3}

NEW AND IMPROVED GENERATION

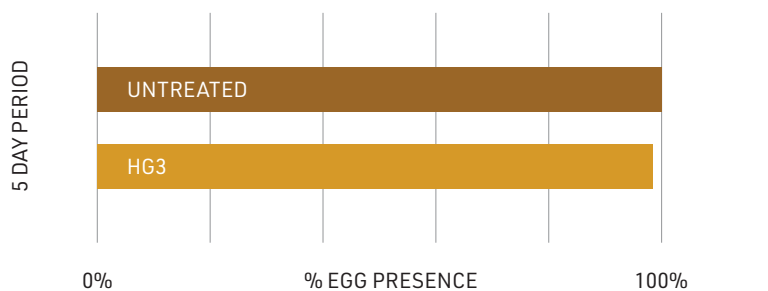

Same natural ingredients, high quality products, all natural, nontoxic to bees and the beekeeper! The perfect natural treatment that efficiently targets exposed mites after a break in brood rearing. Decreases mite population to very low levels and improves colony health.

AVERAGE MITE LEVELS IN TREATED NUCS

HG3 significantly reduced mite levels and remained low after 30 days.

PERCENT EGG PRESENCE POST TREATMENT

HG3 does not disrupt queen performance and egg development.

AVAILABLE IN 10 AND 24 STRIP PACKAGES

Naturally derived from hops

No chemical residues

Safe during honey flow

Easy & effective

Safe on bees—deadly on Varroa mites

Easier to use

Controlled release over 14 days

Increased efficacy

Better dispensability and bee acceptance

FOR MAXIMUM EFFICACY

JANUARY

before almond pollination

MARCH

splits / packages / nucs

SEPTEMBER / OCTOBER

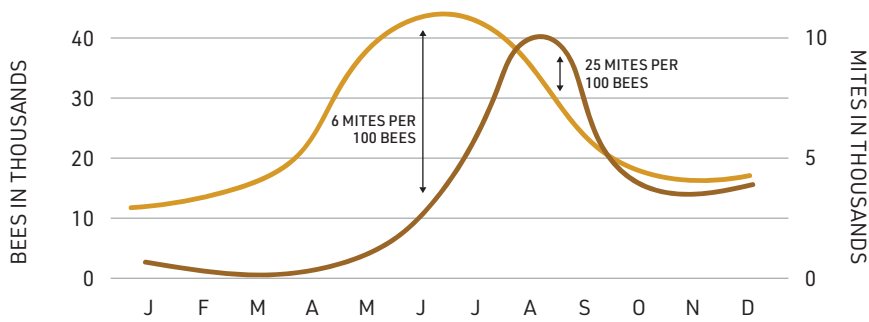

two consecutive applications followed by another miticide

INDOOR OVER WINTER

treat before and right after

CONTROL OF MITE LEVELS

BEES MITES

Control mite levels with HopGuard3 in early spring when there is low brood, in the summer during honey flow and in early fall to avoid multiple cell infestations.

WHEN IS THE BEST TIME OF THE YEAR?

EARLY SPRING: give splits, nucs and bee packages a clean start.

SUMMER: control mites during honey flow and after harvest.

FALL: CRITICAL

- Reducing phoretic mites in **September is critical** to colony survivorship.
- Avoid multiple cell infestations!
- Treat and check mite levels one week after. Two-three consecutive treatments two weeks apart are more efficient than a single treatment.
- Follow up with another miticide before overwintering.

EASY AND SAFE TO USE

Each HopGuard3 kit contains either 10 or 24 strips, ready for use

USE AT A DAYTIME TEMP ABOVE 50°F (10°C)

Hang between brood frames

ACCEPTABLE FOR USE IN:

Langstroth
Top Bar Hives
Drone Mother Colonies
Nucleus
Splits
Newly Installed Packages

2 STRIPS PER 10 FRAMES

Refer to the package label for full instructions
